Java Jive Regular

Typography is the rightful distribution of letters and spaces (historically, using lead type) on a surface—sometimes vellum, usually paper, and now, apparently, a monitor or screen. . .

Java Jive Outline

. . .to convey information and facilitate understanding.

Typographers are people who get excited by letters: their shapes and forms, their colour, their power when combined into words, their history and their future.

Java Jive Condensed

While this is not the place for a discussion of language or literature, it is precisely those areas of our culture with which typography is concerned.

Java Jive Outline Condensed
